THE CONSTITUTION OF
THE AFRICAN NOONE KINGDOM

THE COMMANDMENT-LAWS OF NATURE BY REASON

- # 221. Listen to Reason! The mercy, forgiveness, and scapegoat dogma of Religion obstructs justice. JUSTICE IS HARD AND ALSO HEAVY, and if it is tempered with MERCY and FORGIVENESS and SCAPEGOATISM, it is not justice any longer but COMPROMISE FOR TRANSGRESSSION instead. When JUSTICE becomes COMPROMISE, the compromise encourages further iniquities and transgressions, and we end up with a world like we have today at the time of this writing. COMPROMISE OF TRANSGRESSIONS means that the violations of The Laws of Nature have not been accounted for in the right way, because accounting for transgression is paying the penalty for iniquity required by The Laws of Nature. THE ONLY WAY to ultimately satisfy The Laws of Nature is for THE GUILTY PARTY himself or herself or his own kind pay the penalty required by NATURAL LAW. Let it be remembered always well!
- # 222. Listen to Reason! When SOMEONE QUALIFIED determines by SOUND RIGHT REASON what the law and penalty by Nature are for a particular transgression, the degree that THE CALCULATOR-PERSON might differ from the exact law and exact penalty by Nature is ADJUSTED by The Balacing Powers in Nature in one way or another but always on the guilty person or his kind. Dur-

ing The Moon Cycle, scapegoatism (the guilty placing blame on the innocent) was common practice and permissible, but now that The Moon Cycle is over, that diabolical practice is not only ineffective now but causes backlash penalties on the person or persons guilty, and all the unaccounted for transgressions during The Moon Cycle must be paid for now, and this fact is one of the major causes of ARMAGEDDON - The War of Justice and Balance. Let it be remembered always and well!

223. Listen to Reason! The following COMMANDMENT-LAWS OF NOOPOOH (The Nine-Ether Mentality of Nature) are based on Nature and True Culture BY SOUND RIGHT REASON who is NoopooH. Sound Right Reason is The Original Creator of Original persons, places, and things and The Qualifier of The First One to be QUALIFIED who is Afroo Oonoo, The Scribe and Messenger of NoopooH. Afroo Oonoo is qualified by The Positive Forces of Almighty Nature to determine LAWS OF NATURE and PRESCRIBE PENALTIES for transgressions of those laws. Following is indeed some of The Commandment-Laws of NoopooH -- The Creator of The Universes of Nature by way of Brain-Noots, Brains, and Sound Right Reason. NoopooH is conceived and gestating now.

1. "Do nothing to others you would not want done to self, the same way each time that conditions are the same." This Scribe shall attempt to describe each commandment-law given in this topic, beginning with NUMBER ONE. If you do not obey the preceding commandment, you have transgressed The Laws of Nature. The phrase "THE SAME WAY EACH TIME THAT CONDITIONS ARE THE SAME" makes the commandment constant, consistent, and also standard -- the requirements for Natural Law like law enforcement to the letter is a requirement. Be it not forgotten

224. Listen to Reason! The expression "THE SAME WAY EACH TIME THAT CONDITIONS ARE THE SAME" also demands that one's

THE COMMANDMENT-LAWS CONTINUE

obedience to the commandment be consistent and standard, and penalty for violation of the law must also be standard, that is to say, people must always do the same thing under the same conditions to obey the commandment as required, because Absolute Nature is definitely consistent and standard in requirements and enforcements of The Laws of Nature. The First Commandment-Law in the foregoing paragraph is THE SO-CALLED GOLDEN RULE, and it is A BLANKET LAW that covers most other laws for behavior, because: If a person obeys it, he or she would never treat another person wrong purposely and never commit a crime or transgression against another person, intentionally. This First Commandment-Law is binding, because -- those of us who do not obey it will experience negative returns. Let it be remembered always and let it be known!

- # 225. Listen to Reason! We now shall go to other commandments
2. "Do for others what you would want done for self, the same way each time that conditions are the same." This Law teaches us not to be selfish, but kind and helpful to others in need.
3. "Minimize your sensual pleasures by maximizing your vigilance and resistance to temptation, the same way each time that conditions are the same." Be sure and read "THE PLEASURE AND PAIN LAW" given in Book One of "INTRODUCTION TO THE NATURE OF NATURE," also written by Afroo Oonoo, and it will help you understand this commandment better. Sensual pleasures, of course, are pleasures one enjoys with his sense of seeing, also hearing, feeling, tasting, smelling, and thinking. The gist of this commandment-law is the less pleasure you have the less pain and suffering you or your kind will have to experience. Let it be remembered always and let it be known!

- # 226. Listen to Reason! The phrase "THE SAME WAY EACH TIME THAT CONDITIONS ARE THE SAME" further means that the command-

THE COMMANDMENT-LAWS CONTINUE

ment-law states what it means and means what it states as exactly as practical and permanently, and this fact makes it A LAW OF NATURE. A LAW OF NATURE IS A PERMANENT STANDARD.

4. "Avoid negative temptation by keeping away from it or departing from its presence, the same way each time that conditions are the same." Negative temptation is a powerful and diabolical force, and the best way to keep from being trapped by it is to keep away from it or if you suddenly find yourself in the presence of it, depart from it, immediately. Otherwise, you might very well become a victim of it. TEMPTATION is the opportunity to do something you should not do or be attracted to a person or thing you should not be attracted to. To disobey the temptation commandment is to violate Laws of Nature. Let it be remembered always and let it be known!

227. Listen to Reason! This Writer repeats and emphasizes: If one does not adhere to the commandment-laws of Nature, he or she has transgressed (violated) The Laws of Nature, and will eventually if not immediately, experience the negative results of the violation. If one's violation comes in the form of a physical crime, it is punishable in accord with The Penal Code in Criminality; if one's disobedience comes in the form of moral misconduct, it is punishable in accord with the Penal Code for Immorality. Those violators that go undetected by The Authorities in Charge will run into Nature's balancing Powers and be negatively balanced off by The Avenging Forces of Nature. Intentional accomplices -- people who help do the evil or know or saw who did it and do not report the transgression -- will suffer the same fate as the violators.

5. "Never use drugs except for medical purposes as prescribed by a qualified physician, the same way each time that conditions are the same." Using narcotic drugs as dope for pleasure and fun is lethal to mental, spiritual, and also physi-

THE COMMANDMENT-LAWS CONTINUE

cal healths, and for these reasons and worse, they are menaces and destroyers of the morals, lives, and well-being of communities and societies. Using drugs like tobacco products, alcoholic beverages, plus caffeine as in coffee is also injurious to your health and a burden on your life and oftentime the lives of others as a results of your involvement or death.

228. Listen to Reason! In some societies, people take great pleasure in libelling each other or other human races, but it is true that this practice is diabolical, evil, and malicious.

6. "Never slander a person or race of persons and stay in accord with the facts, the same way each time that conditions are the same." It is evil and wrong to make statements about a person, group of persons, or race of persons which can not be verified to reasonable satisfaction. Character assassination (as it is called) is satanic and demonic and should definitely be discouraged by stiff penalties like public retraction of statements by the offender and a public whipping and perhaps a heavy fine in favor of the victim. It is the duty and obligation of The Government for The People to see to it that its citizens do not publicly vilify and degrade each other out of malice and hate. However, if it is fact what one says about another, and it does not involve a case of confidentiality as in case of physician and patient, the statements made are permissible although the person's words might be from malice and hate. In case of malice and hate, it should be definitely and morally condemned and discouraged for prevention of others doing the same. To put it another way: People surely should not be allowed to publicly slander and vilify each other because of racial hatred, malice, and racial differences unless it is in a public debate where all ethnic races who are discussed be present in sufficient number to verbally defend themselves and the forum be orderly and strictly controlled.

THE COMMANDMENT-LAWS CONTINUE

229. Listen to Reason! The Laws of Nature are THE SUPREME LAWS of the land and Nature in General and They are BINDING. 7. "Use natural herbs and vitamins to maintain fine health or for better health, the same way each time that conditions are the same." We can not always get and eat the fresh and quality foods that we need for good health, so natural herbs and synthetic vitamins are available as supplements. Natural herbal stores called health stores where herbs and vitamins can be bought and books that inform the customer what the vitamins and herbs are beneficial for are becoming increasingly popular and rightly so. Before modern and commercial medicines came into being, people used herbs and various home remedies for control of illnesses and diseases; but, when the greed for finance and control of diseases got out of hand, mundane scientists came up with modern and commercial medicine and surgery to control ailments and diseases and indeed make medical practitioners and the medical industry great fortunes. Sometimes, commercial medicine and even surgery are needed in some cases like new diseases and old diseases that are chronic or diseases which have no cure as of now at the time of this writing. Of course, injuries need immediate attention by all means necessary. Let it be remembered always!

230. Listen to Reason! But, the point and word are this: If the illness or disease is not so bad that you need immediate care from a doctor or hospital, try herbs and vitamins for your ailment and see what happens, because oftentimes commercial medicine fails and surgery only makes matters even worse. Another thing, before submitting to surgery try to get more than one opinion before hand -- three opinions if possible. Doctors and hospitals sometimes do surgery anyway just for prestige and finance. However, the bottom line is definitely PREVENTION -- try to keep your person in fine condition with

THE COMMANDMENT-LAWS CONTINUE

natural herbs, good vitamins, ample rest, good care for self, and adherence to Noone for your mental, spiritual, and physical healths, so that you might not have to resort to commercial medicine or surgery. It is usually easier TO PREVENT or AVOID illness and disease rather than having to try cure for them. Let it be remembered always and let it be known!

231. Listen to Reason! Sex is a major ruling and controlling force in the bottom half of The Smat Circle of Order. 8. "Use sex for balance and reproduction only, the same way each time that conditions are the same." SEX IS SACRED, that is, It is VERY HONORABLE and VERY VALUABLE, and It should be treated that way. If you do not obey this commandment-law of Nature, you or your kind or both will experience very negative returns. Whereas MENTAL BRAINS assume THE SUPERHUMAN FORM in top half of The Circle of Order, SEXUAL BRAINS do assume THE SERPENT FORM in the bottom half of the same circle, and this is one reason why most animals have tails. Of course, animals with animal nature do not exist in the top half of The Circle. A species' sex organs and powers are their SACRED SERPENTS, and They should not be defiled and corrupted. In Universe Science called Noone, the Writer repeats and emphasizes: SEX IS SACRED AND SPECIAL, meaning, It is very honorable and very valuable and very pleasurable, and It should be treated accordingly, because: As well as giving pleasure, mental and also physical balance, Sex produces the future of plants and animals and human beings, likewise. Let it be remembered so!

232. Listen to Reason! Therefore, Sex should be treated with honor and high respect by refusing to misuse it and abuse it. People misuse and abuse Sex when they treat Sex as though It is a sport or an object of lustful pleasure. By defiling and corrupting Sex with unnatural acts like abortion, oral sex,

THE COMMANDMENT-LAWS CONTINUE

prostitution, and homosexuality, people are defiling and corrupting their present selves and their future in the person of their children, and this means increase in disease, crime, immorality, and violence connected with sex perversion, sex disorder, and sex mistreatment. People are not suppose to intentionally increase their desire for lustful sex, but are indeed suppose to let sexual urge come on naturally, and when it naturally builds up to the point of need for relief, then relieve it in union with your spouse, naturally; so you do not breach The Laws of Nature. Naturally relieving sex urge, when relief is needed, helps balance your mental and physical persons, and reproduction of offspring should be planned. Therefore, Sex is meant for natural balance and planned reproduction purposes. Let it be remembered always and well!

233. Listen to Reason! Sound-Right-Reason NoopooH has been conceived, and their conception is like their birth to us in the bottom half of The Smat Circle of Order, because: NoopooH is NEW, YOUNG, GROWING, DEVELOPING toward MENTAL GIANTHOOD.

9. "Pronounce the name NOOPOOH often for positive mental and spiritual companionship, the same way each time that conditions are the same." In the top half of The Order Circle of Nature NOOPOOH IS THE WORLD SOUL -- All Brain-Noots, Brains, Reason, and Spirit Beings existing then, plus all energies (potential and active) of persons and things like the Flesh-and-Blood Gods and Goddesses and vegetation, everywhere. The World Soul is all energies and all life of The Universes. It is so that during the bottom half of the Circle of Order, ZoopooH is The World Soul, and the same definition for The World Soul goes for NoopooH, except that NoopooH's World-Soul Dominion is in the positive-and-nine zone and cycle, and Zoo-pooH's World-Soul Dominion is in the negative-and-six zone and cycle. Let it be remembered always and let it be known!

THE COMMANDMENT-LAWS CONTINUE

234. Listen to Reason! We all now exist at rock bottom of The Circle of Order. At this Point (3 South) The Universes must reverse upward counterclockwise for another circle-cycle of 72 million years or reverse downward clockwise and head for oblivion. Hence, ZoopooH is the pull downward on the Circle of Order, and NoopooH is the pull upward. So then, if The Universes are to continue to exist in order for another 72 million years, they must have that upward pull in standards, values, qualities, abilities, and energies, and that upward pull and push are NOOPOOH and NOONE -- The Power and Science of Sound Right Reason. Let it be remembered always and well!

235. Listen to Reason! NoopooH can not exist as SPIRIT BEINGS in the bottom half of The Smat Circle of Order, because the bottom half is The Domain of ZoopooH. But remember, in order for any person or thing to naturally come into being, he or she or it must be conceived and go through the gestation process and period and be born. This principle also holds true for NoopooH. So, in the case of NoopooH, NoopooH's conception in The Center Brains of The Suns is like The Birth of NoopooH to us persons and other beings in The Universes, because: After The Brains of The True Stars of The Universes are impregnated again by Brain-Noots with Nine-Ether Mentality, The Brains of The Centers of The Suns begin to emanate Nine-Ether Mind again, and that emanation gradually increases in volume and density until All Existence reaches Point 6 East counterclockwise, where the atmosphere becomes Nine-Ether in Purity again as well as Nine-Ether Mentality and thereby The Image Births of NoopooH occur again -- The Image Births of NoopooH are The Flesh-and-Blood Gods and Goddesses of The top half of The Smat Circle of Order during the time that the top half exists. The Power and Science of NoopooH and Noone are The New Order for persons and things. Let it be remembered so!

THE COMMANDMENT-LAWS CONTINUE

236. Listen to Reason! This Writer keeps saying that the Conception and Gestation of NoopooH seem like The Birth of NoopooH, because the true and real and full birth of NoopooH (Sound Right Reason) does not happen until Point 6 East on The Smat Circle of Order, and that is 18 million years from now at the time of this writing, but the way that NoopooH is developing as an embryo is like their growing as a newborn babe, meaning, bigger, stronger, and more intelligent as time proceeds. The gradual emission of Nine-Ether Mentality (NoopooH) from The Centers of The Suns goes to The Centers of Universe Orbs such as The Planets and Satellites, and They too begin to resurrect and gradually permeate Ether Mentality more positive than before. And, of course, this Nine-Mentality Activity affects us Human Beings, advertently, that is to say, in a noteworthy and positive manner. Let it be remembered always well!

237. Listen to Reason! So then, The Conception of NoopooH is the beginning of Nine-Ether Mentality in The Brains of The Stars again, and The Gestation of NoopooH is the gradual increase and emanation of that Nine-Ether Mind to the rest of The Universe, including Human Beings. But someone among us Humans has to be THE HERALD (The Head Messenger) of the knowledge of this NEW CYCLE and NEW ORDER of persons and things, and NoopooH selected and appointed from among their posterity, AFROO OONOO, and quailfied and authorized him to write, circulate, and propagate NOONE (The Science of Beginnings and Endings plus The Smat Circle of Cosmos and including The Smat Circle of Chaos). The Conception-and-Gestation Period and also Process for NoopooH start at Point 3 South and move upward counterclockwise toward Point 6 East on the right side of the Order Circle. Let it be remembered always and be it known!

238. Listen to Reason! NoopooH has already been CONCEIVED and

THE COMMANDMENT-LAWS CONTINUE

is now beginning to emanate and gestate by mentally resurrecting Human Beings as well as Universe Bodies such as The Stars, Planets, and Satellites. We Human Beings must let Noone (The Positive Science of NoopooH) be our guide, because Noone is designed to put Nature Knowledge in CHRONOLOGICAL ORDER and our minds in order along with it. Hence, do not let other information confuse you anymore, because the aim and objective of The Negative Forces of Nature is to do just that -- keep us confused and confounded. Pronouncing the name NOOPOOH often and NINE TIMES or more magnifies and unites Nine-Ether Mind, and Nine-Ether Mentality acts as our Spirit Being and Guide together with The Positive-Forces Side of The Negative, if you are A NOONEBU -- an adherent to The Science of Sound Right Reason known as NOONE. This Writer repeats: NoopooH is developing in The Universe Orbs such as The Sun, Earth, and Moon, and also in the atmosphere and likewise in the minds of persons and things. The Conception of NoopooH is like The Birth of NoopooH to us Human Beings, because The Universe Physical Birth of NoopooH does not occur until All Existence reaches Point 6 East on The Smat Circle of Order. Let it be remembered

239. Listen to Reason! The Gestation of Sound Right Reason (NoopooH) takes place like Winter turns to Spring and Spring turns to Summer. The Centers of Universe Orbs called The Suns emanate Nine-Ether Energy during the top half of The Smat Circle of Order and Six-Ether Energy during the bottom half of the same circle. When the gestation process reaches Point 6 East, The Point-6-East Cataclysm happens, and afterward, there is rebirth of all Original Beings in the same order that occurred at the beginning of The Universes. Circle-Cycles (complete circuits of The Order Circle) happen 80 times before The Universes of Nature expire at Point 3 South of The Circle. Let it be remembered always and let it be known!

THE COMMANDMENT-LAWS CONTINUE

240. Listen to Reason! Right now, mental energies from The Centers of All Universe Orbs are moving more positive toward NoopooH. In addition, The Negative Forces of Nature that rule the bottom half of The Smat Circle of Order have A POSITIVE SIDE as well as A NEGATIVE SIDE, and that positive side is PARTIAL (favorable) to NoopooH and Noone; and this fact means that, although NoopooH is not Spirit Beings in the bottom half of The Order Circle, NoopooH and Noone have Spirit-Beings' aid and support and recognition, because Spirit Beings know, even though They have created and supported Religion for six thousand years, it is time for us all (Spirit Beings as well as Human Beings) to be taken upward in standards and values and qualities by Nine-Ether Mentality (NoopooH) and also Nine-Mind Knowledge (Noone) counterclockwise on the right side of The Smat Circle of Order. Let it be remembered always and known!

241. Listen to Reason! NoopooH is becoming THE MENTAL LIGHT and PHYSICAL LIGHT of The Universes and duly and rightly so.

10. "Obey all The Commandment-Laws of NoopooH at all times, the same way each time that conditions are the same." This Commandment-Law is THE PANEECA LAW of NoopooH, because: Not only does it include all Commandment-Laws of Sound Right Reason, but it also demands that the person be knowledgeable, alert, and applicable to natural process called unity with Nature in order to be blameless. The Paneeca Law indeed means THE CURE-ALL-PROBLEMS LAW and THE PREVENTION-OF-ALL-PROBLEMS LAW. If you do not obey this Commandment-Law of NoopooH, you have transgressed The Laws of Nature. Natural Law demands for sure that things be done in as natural a way as possible and practical with your degree of knowledge and ability. Positive life is based upon True Culture and what makes reasonable and progressive sense, because Sound Right Reason is The Basis of All Positive Intelligence and Nine-Mind. Let it be remembered

THE COMMANDMENT-LAWS CONTINUE

242. Listen to Reason! All Laws of Nature are interwoven also intermingled into interrelationships and networks called cycles and societies. The Government of a positive society is in accord with The Laws of Nature as best it perceives them. A government of the people who is not in keeping with The Laws of Nature is in conflict with Almighty Nature, and its fate is determined by Almighty Nature according to Nature's Laws. In True Culture, the lawmakers and lawgivers base their laws and penalties upon Sound Right Reason who is THE ONLY BASIS for truly determining and distinguishing right from wrong. All laws are determined by Reason, and those laws that are surely derived at by SOUND RIGHT REASON are The True Laws of Nature as close as Human Beings can get. Any discrepancy or difference between The Laws made by the qualified and authorized Lawmaker and Lawgiver for NoopooH Nature and THE PURE LAW IN PERSON is adjusted by Absolute Nature during Its balacing process of powers. Notwithstanding, this fact hold true for all human-made laws which people have to live with and live by in accord with their society, but the main difference between a person qualified by Nature to make laws and one not qualified by Nature is that the laws are much closer to exactness when made and given by The Nature-Qualified Person. Do not forget to concentrate on and pronounce The Name NOOPOOH often indeed for mental, spiritual, and physical strengths and better understanding of NOONE. Let it be remembered always and known!

243. Listen to Reason! 11."Male and female persons must have equal rights whenever and wherever possible and practical, the same way each time that conditions are the same." If you do not obey this Commandment-Law of NoopooH, you have broken The Laws of Nature. The World of The Moon Cycle which lasted for six thousand years was a world that did not define the true positions of male and female persons in a society or societies

THE COMMANDMENT-LAWS CONTINUE

of The World either. However, since the male person is biologically different from the female person, their roles on the world stage are somewhat different; in fact, males and females are opposites by Nature, and this is the main reason why the two can sexually procreate. Therefore, one must have the rights due a male, and the other the rights due a female; one must have the rights due a father, and the others the rights due a mother; one must have the rights due the head of the household, and the other the rights due the helpmate of the household. And all this adds up to equal rights for both sexes but not necessarily the same rights in every respect of life. For example: Usually, a male person by Nature can be a better policeman, fireman, or construction worker than a female person, because -- he is stronger by Nature and usually more nervy (braver) and more rugged, making him more suitable for doing a better job as a policeman, fireman, or construction worker, not to mention military service as indeed a combat serviceman, just to mention a few positions less suitable for female persons for obvious and various reasons. Let it be remembered always and let it be known!

244. Listen to Reason! One might argue: The female did not make herself physically weaker by Nature; so why should she not hold these positions? Right, some females might be able to hold these positions, but what the writer is trying to so make clear is this: She is not as physically able to do the job as a male, and her image as a female entity is damaged; therefore, she is likely to get from the male person less respect and less lady-like treatment as a female and child-bearing person. Moreover, the female entity can not rightfully claim the rights of a father, and the male entity can not correctly claim the rights of a mother, because the female can not biologically be a father, and the male can not

THE COMMANDMENT-LAWS CONTINUE

organically be a mother. Also, because the male individual is usually physically stronger and acts as the protector of the household, he is chosen by Nature to be The Head of The Household. Let it be remembered always and let it be known!

245. Listen to Reason! There can not peacefully and securely be two heads of one household, just as there can not be two Kings of one Palace and Kingdom or two Presidents of one country, peacefully. The place of the female person is in the home as a wife, mother, and helpmate alongside her spouse called her husband, and the place for a male person is on the job providing for his family, and when at home, safeguarding his household and fulfilling his household duties. This Penman understands that in societies of today, female people do work and make their own way, but this status of societies is one that must be somewhat modified, if the World is going to be a happy place for both male and female persons of The HUman Species. Let it be remembered always and be it known!

246. Listen to Reason! It is the duties of men to see to it that their women and children are protected, taught properly, and provided for; and it is the obligation of The Government of a society or nation to see to it that every responsible man has a job to support his family and maintain his household. This does not mean that women should not work for a living, but it does mean that male persons must be THE MAIN WORK FORCE AND PROVIDERS, because they should have families to provide for and those families should indeed be the female persons and children of the society. The point is this: The Writer is seeking order and peace between the sexes by defining their positions by Nature in the workplace, the home, and society at large. Because their places in The World and also society have not been defined any at all or defined ever so

THE COMMANDMENT-LAWS CONTINUE

poorly, there is too much contention and hatred between the male and female genders, which cause the sexes to lose trust and respect for each other and fuss and fight in all the ways that they can. The males of an ethnic race are responsible for the females and children of their ethnic race; therefore, intelligent male persons must lead the way to safety, peace, and happiness and maintenance of these qualities and values. Let it be remembered always and let it be known!

247. Listen to Reason! Another thing, this Writer is not trying to turn the clock back to the old days when women were oppressed and treated like wayward children, for he repeats that females of the human species must have equal rights in reality and practicality. For instance: Just because a man is head of the household does not mean that he should perform things and make decisions concerning his family without consulting and conversing with his spouse on the issue -- this respect is due her and perhaps his children, too. When the couple discuss the subject, the pair should, of course, agree on the final decision. If the female spouse's idea or opinion seems to be the better or best one, it should prevail, and not be rejected because the male spouse is the head of the household and must do all the thinking and decision-making. Let it be remembered always and let it be known!

248. Listen to Reason! However, if the spouses can not definitely agree on what should be done or how it should be done or the time it should be done, then it is the obligation of the man of the house to go it alone on the final decision; but this disagreement and disunity should never ever happen between two intelligent and reasonable spouses. If the two individuals are able mentally to follow the line of Reason, each person can figure out which one of the two has the bet-

THE COMMANDMENT-LAWS CONTINUE

ter or best idea or opinion or information. Intelligent and Reasonable People can find their way by Nature, if they use Noone and their Best Minds called Sound Right Reason. Let it be remembered always and let it be known!

249. Listen to Reason! A society can be almost crime-free if proper preventions are used such as proper teachings, making cost-of-living jobs available for ALL MEMBERS of the society, all members of the society having all valuables and values in common, and providing a government central office where all problems of all citizens can be heard and solved.

12. "Crimes must be punished by public whipping, castration, payment for damages, death, or a combination of public whipping and payment for damages, the same way each time that conditions are the same." IN TRUE CULTURE, there are no jails or prisons for detention of suspects of crime or those convicted of crime, except for temporary custody to determine the person's status of guilt or innocence and time to execute the penalty if there be a guilty verdict. There is no ample reason for keeping a person in prison to pay his debt to society which is a false claim in itself. A person should be detained just long enough for due process of law to conclusion. Let it be remembered always and let it be known!

250. Listen to Reason! Prisons only further degrade and pervert inmates and make society and the perpetrators worse off, because: Usually, the culprit is not rehabilitated in prison properly and given a job to keep him or her out of trouble when the person comes out of detention; so he or she is indeed a worse menace to self and society after the prison time, because usually no one will give him a job to support himself and his household family, if he has one, and this leads definitely to more crime and worse conditions than ever before.

THE COMMANDMENT-LAWS CONTINUE

Usually, prisoners do nothing in prison that is truly productive and positive, especially in a capitalistic society where private and military powers control the industries of the economy. In other words, prisoners should not be working for private industry in prisons which would be free labor more than less. Therefore, what do inmates accomplish in prisons other than wasting their time and the taxpayers money while becoming depraved and degraded? Moreover, long-term detention promotes homosexuality and other denaturations. Hence, inmates for long-term imprisonment are unnatural and unbecom- ing intellient people and thereby against The Laws of Nature. So, it is true, if those in authority do not obey The Commandment-Law of NoopooH in paragraph 249 of this topic, they have violated The Laws of Nature. Let it be remembered always so!

251. Listen to Reason! As the old adage goes: Correctly and sincerely teach children what they should know and as they do grow older they will not depart from it.

13. "Children must also be taught in public schools what the laws of the society are and the penalties for breaking the laws, the same way each time that conditions are the same."

The old saying that ignorance is no excuse for disobeying the law is A NEGATIVE OPINION, because it is UNREASONABLE. If a society does not teach its citizens in public schools what the laws are they are expected to obey, and a citizen unknow- ingly breaks a law, it is unreasonable to say he or she defi- nitely should have known better, unless it is a transgression which is PLAINLY wrong considering that person's intelligence. Citizens should know what the laws are which govern the peo- ple of the society and what the penalties are for violating those laws. If the school authorities of a sociaty do not obey The Commandment-Law given in this paragraph, they have in- deed perpetrated The Laws of Nature. Let it be remembered so!

THE COMMANDMENT-LAWS CONTINUE

252. Listen to Reason! 14. "Transgressors must not pay their debts to society but to the person or persons violated, the same way each time that conditions are the same." Although a person violated by a perpetrator may be a part and member of the society, it was NOT the society as a whole which the culprit violated -- it was THE IMMEDIATE VICTIM or VICTIMS in the society. Therefore, if there is any monetary value lost by the victim, that value must be returned or replaced by the transgressor to the violated person or persons and the violator gets a public lashing known as a whipping. The Government and Society must see to it that the culprit pays his or her debt to the victim or victims -- not to society at large or to private industry. Let it be remembered always and be it known

253. Listen to Reason! 15. "Take your problem or problems to CENTRAL SOLUTION for settlement and satisfaction, the same way each time that conditions are the same." If a citizen of the society or nation has a problem he or she can not properly solve without resorting to crime, violence, or some other type of immorality, he or she must take the problem to CENTRAL SOLUTION -- The Government's Central Office or station for solving citizens' problems. By having this kind of set-up, The Government of a country or nation can eliminate any excuse a citizen might have for doing wrong or doing crime.

16. "All citizens able to work for a living and need to work for a living must be provided with a job by The Government, the same way each time that conditions are the same." Since work and rest are more than less opposites, The Authorities or Government must balance them off by requiring a four-day work-week and the other three days be given to rest and relaxation for the citizens. This arrangement will help provide indeed for everyone to have a job, rather than some citizens working and others out of jobs and suffering and living on welfare in

THE COMMANDMENT-LAWS CONTINUE

ghettos. Making sure that each citizen able to work and need to work has a job and a place to go to get his or her problem solved is also a type of crimes-prevention program very vital to keeping society crime free and have high morale and morals. Let it be remembered always and let it be known!

254. Listen to Reason! 17. "All citizens unable to work for a living, because of a mental or physical malady or condition, must be provided and cared for, the same way each time that conditions are the same." Like all the other Commandment-Laws of NoopooH, if The Government or those required to do so do not adhere to this Commandment-Law of NoopooH, they have breached The Laws of Nature and will experience negative returns. If a citizen has been medically declared unable to work, The Government must see to it that that person is provided and cared for. But, if the citizen can work any at all, let him or her do so, and supplement the work pay so that the individual will have sufficient funds for living properly. Let it be remembered always and let it be known!

255. Listen to Reason! 18. "Parents able to work must support their offspring until they are 19 years old, unless the offspring is able to support himself or herself before then, the same way each time that conditions are the same." In a society of True Culture, parents do not evade their responsibilities to their children such as fathers failing to provide for their offspring and mothers failing to care for their children. Child support and care last for the first nineteen (19) years of a youngster's life, unless he or she is able to go for self earlier than 19 years old. Let it be remembered always and let it be known!

256. Listen to Reason! 19. "Have sex intercourse with your

THE COMMANDMENT-LAWS CONTINUE

own kind only, the same way each time that conditions are the same." It is unfair to the offspring as well as ethnic races for people to genetically mix The Human Races sexually and have offspring, because the children do not know which human race they belong to other than The Minglese Race, and this fact sometimes angers and frustrates children and sometimes even more so after they become adults. Children have nothing to say about their coming unto this world in the first place; so, the least the parents can do for children before they indeed create them is make sure that they are as racially pure as possible and as identifiable as practical, and this gives the offspring racial identity and pride and dignity to know that he or she can define self and feel comfortable and right doing so. Let it be remembered always and let it be known!

257. Listen to Reason! INTERRACIAL MIXING to the point of OFFSPRING is A TYPE OF GENOCIDE, especially for The Ethiopian Race, because: True members of The Ethiopian Race have KINKY HAIR, and in The World in which we all live, people with KINGLY HAIR are not usually treated and accepted the same way that people with straight hair are, and this is no secret to anyone who observes persons, attitudes, and positions. Therefore, MISCEGENATION (particularly with the Caucasian Race) is GENOCIDE for The Ethiopian Race, since no one with Ethiopian-Race Blood in his or her veins is accepted in The Caucasian Race as a member. Hence, all mixed members of The Ethiopian and Caucasian Races are forced to become members of The Ethiopian Race, and thereby this spells genocide for The Beautiful Kinky Haired Black Race -- this has to stop at some point before The Ethiopian Race be destroyed by INTERRACIAL SEXUAL MIXING AND BREEDING throughout The World. Members of The Ethiopian Race, we must suppress our emotions, wantonness, gullibility for members of other ethnic races or be destroyed racially by

sex lewdness and lust -- what you think is love is only lust, and it is true that lustful love is a diabolical monster. Let it be remembered always and let it be known!

258. Listen to Reason! Any Commandment-Law of NoopooH that is broken means The Laws of Nature are breached, and once Laws of Nature are transgressed, there will eventually be penalties by Nature. And it is true, when a transgressor violates one law of Nature, he or she has usually violated other Laws of Nature, because The Laws of Nature are so closely interwoven and interrelated into closely intermingled networks.

20. "All citizens of a society or nation must share all resources and values and land of The Nation in common, the same way each time that conditons are the same." It is diabolical (evil) for some people of a society or nation to have millions and billions of dallars and others have nothing, although the ones who have little or nothing are the working people who are the backbone of the country. In true culture, the people of The Nation own the land and its resources and other society values that might exist, but elect whomever they wish to administer The Government and economy. Let it be remembered so!

259. Listen to Reason! 21. "Adhere to and propagate the positive ones of The Opposites of Absolute Nature for The Road to Heaven on Earth, the same way each time that conditons are the same." One of the purposes of THE POSITIVE SCIENCE NOONE is to distinguish The Positives of Nature from The Negatives of the same by defining and identifying them plus explaining the Opposites of Almighty Nature for better understanding of life and death. Understand and adhere to NOOPOOH AND NOONE (The Positive Opposites) and be AN ELITE of Almighty Nature. An Elite is a person who is Nature Knowledgewise and has been selected to survive Armageddon, The War for Justice. Remember!

THE COMMANDMENT-LAWS CONTINUE

260. Listen to Reason! 22. "Never indulge in the unnatural sex perversion called homosexuality, the same way each time that conditions are the same." The mouth was created to eat and talk with by Nature, and the rectum was created to have bowel movements with by Nature; therefore, any other use of these cavities of the person other than those intended by Nature is transgression of The Laws of Nature and thereby punishable by Nature's Negative Forces and Powers. SEX IS SURELY SACRED -- very honorable and very valuable -- because it creates the future by procreating persons and other living beings; therefore, it should be treated with honor and respect by refusing to misuse and abuse it. To use any organ, other part, or cavity of the head or body for any purpose other than the purpose intended by Nature is misuse and abuse of that part of the individual, and that misuse and abuse of parts and organs create ADVERSE REACTIONS called diseases and maladies and disorders which lead to and cause death. There is an old proverb which states that THE WAGES OF SIN IS DEATH, and homosexuality is truly SIN and transgression of The Laws of Nature. Not only is homosexuality perversion which corrupts the present but the future as well in the person of future generations. Let it be remembered always and let it be known!

261. Listen to Reason! 23. "Abortion is an abomination definitely forbidden, the same way each time that conditions are the same." Life is a burning, and the burning indeed for the construction of life begins at conception. Hence, the life of a person or thing begins at conception, and the conscious life of a person begins at birth. Therefore, just because a person is not conscious of his or her life and surroundings before birth does not give anyone (including the mother) the right to destroy that life. Any intentional attempt to destroy or terminate the egg and sperm in a female

THE COMMANDMENT-LAWS CONTINUE

after they have united for creation is violation of The Laws of Nature pertaining to life and its natural rights for survival; and, if the attempt is successful, the violation becomes homicide called MURDER. The proper way to avoid undesired pregnancies is SEX CONTROL and PLANNING FOR YOUR PROCREATION known as OFFSPRING. The only permissible types of pregnancy for termination are rape, incest, and danger to life of mother, because termination of these pregnancies are JUSTIFIABLE. The killing of a human being is not justifiable, except in self defense, but in the case of abortion, rape and incest are added; and the killing of an animal is not justifiable unless it is a pest, menace, sick or injured and can not be cured, or is eaten for food. Let it be remembered always!

262. Listen to Reason! 24. "Plan to have your offspring intentionally instead of by chance or accident, the same way each time that conditions are the same." Violation of this Commandment-Law of NoopooH is transgression of The Laws of Nature, and this violation brings on UNNECESSARY HARDSHIPS and UNWANTED PREGNACIES. It is all right to enjoy the fullness of sex when Nature naturally and normally brings on the urge and the time for sex is right, but the female person has to determine and know when the time is right, and her mate must work with her and her cycle. Female humans must be taught about how to recognize the time most likely for them to get pregnant if they have sex. Sexual partners, as early as possible in their lives, must be taught about THE RHYTHM METHOD or THE OVALATION METHOD or BOTH METHODS of sex and birth control since the two are related. Sex moderation is the key to sex control and birth control. Let it be remembered always well!

263. Listen to Reason! If members of a society or nation are not willing and ready to say no to coition (sexual inter-

THE COMMANDMENT-LAWS CONTINUE

course) when necessary for their own good and well-being and must have sex enjoyment to its maximum when they do have sex, that society or nation is out of sex control and morally bankrupt and thereby prone to needless problems and sufferings. It is beautiful to experience the fullness of having sex at the right time and place, but not just any time you please and after you intentionally build up lust for sex; you should let urge for sex build up naturally. Too much sex is counterproductive and negative, and when spouses become sexually and physically overworked due to too much sex activity, the relationship or marriage experiences problems and oftentimes violence and separation. Too much of any thing is diabolical and detrimental. A couple should always plan to have sex and plan to have their child or children for the time they choose and not accidentally or by chance. Let it be remembered well!

264. Listen to Reason! 25. "The killing of a person is not justifiable except in self-defense, the same way each time that conditions are the same." Killing in self-defense in this commandment-law means a person is a direct physical and actual threat to your life with a weapon or hands or feet and is attempting to attack you or has attacked you already, and you defend yourself against this negative action, and you do reach a point during your defense where you had to kill the offender in order to survive. This means that the defender of self must not kill the offender unless he has to in order to save self. No other killing of a person is justifiable. In True Culture, there is no such thing as DEGREES OF MURDER, and the penalty for murder is death. Furthermore, there is no such thing as MANSLAUGHTER, because, if you killed the person in any other cause other than self-defense, it is murder. Negligence, insanity, accident, and unintentional are unfortunate but also unjustifiable for death of a person. Remember!

THE COMMANDMENT-LAWS CONTINUE

265. Listen to Reason! But The Authorities themselves do not kill or execute the murderer but give the killer a choice: Starve to death or voluntarily terminate his own life by ORAL-INTAKE. If a mentally ill person maims or kills, it is very unfortunate, because he or she must be given oral-intake for death, emphasizing that the only justifiable killing of a person is self-defense, unless the person is yourself. The oral-intake can be anything lethal when swallowed, but whatever it is, must be the same sleeping pill or substance for all murders and killers. The killing of an animal is not justifiable either, unless it is a pest, a menace, sick or injured and can not be cured, or the animal is used for food. No person is guilty of any thing, unless proven to be so beyond a reasonable doubt, and this means that THE INNOCENT must always indeed be protected and the victim must have his or her satisfactory settlement. If The Authorities can not find the perpetrator of a crime in a reasonable time, The Government must be responsible and make damages payment in absence of the transgressor. Let it be remembered always and let it be known!

266. Listen to Reason! The only way people can come close to keeping their society morally clean is to physically do what they have to in order to succeed. We have just taken a look at THE PHYSICAL THREAT on one's life, and defended it with justifiable homicide if necessary. Now, we take a look at THE VERBAL THREAT on a person's life and limb.

26. "Do not tolerate verbal threats to kill or do other harm to a citizen or person in your society by another person or persons, the same way each time that conditions are the same."
For one person to verbally threaten another person's life or safety is an assault on that person; and, if the assailant can be identified and caught and the threat can be proven by eye-witness or some other proof beyond a reasonable doubt, indeed

THE COMMANDMENT-LAWS CONTINUE

the guilty one must be given a good public whipping and fined for the anxiety and tremor he might have caused on the person threatened, because a threat on one's life and safety can be very unnerving and traumatic. No verbal threat is to be taken lightly as a joke or meaningless; all threats must be firmly taken seriously and treated accordingly by The Government and The Authorities thereof. Frankly speaking, the person verbally threatened has the natural right to kill the person who threatened him, for a verbal threat is an assault; but NoopooH does not permit this, because: A verbal assault is not as realistic as a physical assault and the avenging person might indeed have a problem proving self-defense plus the fact that The Authorities must solve the problem. If what someone did to you is serious enough to threaten the person for, it is definitely serious enough to report it to CENTRAL SOLUTION, The National and Natural Headquarters for solving citizen's problems. Of course, The Commandment-Laws of NoopooH are certainly meant for The True-Culture Society of the near future. Let it be remembered always and let it be known!

- # 267. Listen to Reason! 27. "If a person has a natural right to live, he or she also has a natural right to die under the proper circumstances, the same way each time that conditions are the same." Of course, HOMICIDE is the murder of a person (or persons) by some other person (or persons); GENOCIDE is methodic murder of one racial group by a different-by-nature other racial group, and SUICIDE is the murder of one's own self, meaning, self-murder. The murder of oneself could technically include one person of an ethnic race murdering another person of the same race; but, to include this definition within THE PERSONAL DEFINITION of suicide is TOO IMPERSONAL to combine into law and make reasonable sense for the person murdered, although it is true that all members of an ethnic race

THE COMMANDMENT-LAWS CONTINUE

are certainly parts of the whole ethnic race, because the entire ethnic race is the whole person. Suicide, of course, is simply a way out of the misery of mental and physical sufferings. Let it be remembered always and let it be known!

268. Listen to Reason! If an individual wishes to kill himself or herself because of a terminal disease or injury which has him or her in dire pain and suffering or the person is just simply tired of living and wants to die, let him or her do so with dignity. But first, see whether the person can be helped and brought back to normalcy. If the person's death will create problems for others, The Authorities must try and help solve the problems before the individual's death or do so after the suicide. A person wants to die when he or she has problems too great to solve and too great to bear. In the case of mental illness, let the person die with dignity like anyone else and, of course, people with mental problems are not permitted to reproduce offspring for obvious reasons such as the offspring may also be mentally ill and it would be a setback to improving the mentality of ethnic race. The proper authorities of the society may assist the person with his or her suicide by making the necessary oral-intake available in the right dosage needed for death, and that oral-intake can be anything that will put the suicide (mentally ill or not mentally ill) calmly to sleep and he or she never wakes up again. Let it be remembered always and let it be known!

269. Listen to Reason! 28. "Mentally ill and retarded people, the old and infirm, and other mentally and physically handicapped people must be provided for and cared for by The Government, the same way each time that conditions are the same." These unfortunate people must be provided for and also cared for properly by The Government of The People by The Peo-

THE COMMANDMENT-LAWS CONTINUE

ple and for The People, of course, because they can not do for themselves all the things that need to be done, but whatever they can sufficiently do for themselves, do let them. Also, if a person is criminally insane, he or she must indeed be put to death by suicide, unfortunately. Mental illness and retardation in people are usually hereditary, and in order to keep it controlled and possibly eradicate it eventually, people who have mental problems must not be allowed to have children, and this means closely controlling their sex activities by not allowing them to have sex intercourse and channelling their interests elsewhere like in games and other entertainments which they can see, hear, and participate in directly and joyfully. If a mentally ill or retarded person does accidentally become pregnant, an abortion is necessary and justifiable. By the way, this justifiable type of abortion should have been mentioned in the information on Commandment-Law Number 23 beginning on Page 180 paragraph 261 of this topic. If the one who impregnates the female person who has mental problems is surely a normal individual, he must be given a good public lashing and compelled to pay any damages incurred. Please let it be remembered always and let it be known!

270. Listen to Reason! 29. "One-sided racism is an abomination definitely forbidden, the same way each time that conditions are the same." EQUAL RACISM is The Human Races treating each other as each race wishes to be treated. Equal racism requires and demands equal recognition and equal respect for all ethnic races and from all human races. Equal racism demands equal treatment and equal provisions under the laws of the society or nation. ONE-SIDED RACISM is the opposite of equal racism. One-sided racism is oppression and suppression of one ethnic race upon another ethnic race or ethnic races. One-sided racism is diabolical and violates the human and also

THE COMMANDMENT-LAWS CONTINUE

natural rights of other human races, and thereby transgresses The Laws of Nature. In a society of multiple human races, where one-sided racism is practiced, and one race uses one-sided racism to counteract the one-sided racism of another human race, one-sided racism becomes equal racism in this case as an equalizer force. But, in true-culture society, one-sided racism is null and void according to The Laws of Nature, and must be treated as criminal activities and abuse and misuse of authority upon another human race by the dominant race of the society. One-sided racism is an abomination to human and natural rights as well as intelligence. Let it be remembered!

271. Listen to Reason! 30. "Interracial marriage is racial genocide forbidden, the same way each time that conditions are the same." It is very selfish for two people to think only of themselves and not consider what disservice and problems they might create along with their procreation of their children of an interracial marriage or relationship, and one of those disservices and problems is GENOCIDE OF THE RACES INVOLVED, particularly from the standpoint of The Ethiopian Race with The Kingly Hair which makes its members of mixture easily distinguishable, usually. Interracial mixing sexually is assault on The Ethiopian Race especially, because our Race has to absolve the results of miscegenation, while The Caucasian Race refuses to accept racial mixtures, particularly those from The Ethiopian-Race side of Humanity, and this fact means one-sided genocide for The African Race, and this is neither tolerable nor desirable to intelligent members of The Ethiopian Race who are trying to restore pride and promise, respect and dignity, recognition and integrity to The African Race also called The Black Race. One race does not have to only physically kill off the members of another race in order to commit genocide,

THE COMMANDMENT-LAWS CONTINUE

it can also sexually dump on another race and help cause genocide of that race, and note that this kind of genocide is pleasurable and much less noteworthy, and this is part of the trick and deception for destruction of the oppressed race. Let it be remembered always and let it be known!

272. Listen to Reason! Of course, The Commandment-Laws of NoopooH-Nature are meant for True-Culture Society where people are taught to live by The Laws of Nature to the best of their knowledge and abilities and are taught what the Laws of Nature are and their meanings and values. However, those people in any society who can accept, learn, and practice The Commandment-Laws of NoopooH to the full extent that The Laws are practical and can be practiced in their society are definitely ELITES -- those who can survive Armageddon -- the climax war between rightness and wrongness. Study information.

31. "An adult-male person may legally and ethically marry as many spouses as he can provide for and sexually comfort, if there be extra eligible female persons available in the society, the same way each time that conditions are the same."

Note carefully the reasons for this law as information is so given about it. Usually, a society has more eligible women for marriage than it has eligible men, because usually women live longer by Nature than men and men get killed off by wars and harder work among other factors of shorter lives for the male gender of the human species. Let it be remembered, well!

273. Listen to Reason! Another thing, it stands to reason that it is much more natural for a male person to have more than one wife than for a female person to have more than one husband -- a rooster on a yard for hens is one natural example. The pith of the matter is this: If a society has more eligible women for marriage than it has men, what are those

THE COMMANDMENT-LAWS CONTINUE

extra females going to do? The answer is -- if they are going to be sexually active, they have to practice lesbianism (which is homosexuality among women), prostitution, or sleep with other women's husbands or any combination of these vices. So then, in order to keep a society as mentally, ethically, and physically clean as possible and practical, those extra females must be kept respectable and productive as wives and also mothers instead of outcasts, and the children must have legal and devoted fathers for role models for the boys and protectors of the household, while the wives and mothers be role models for the girls and be homemakers as only females can. If there be no extra eligible females in the society, the males can not have but one wife each. If it so happens in a true-culture society that the number of eligible men for marriage outnumbers the number of eligible women, the extra men may so find their wives in some other country of their own kind, and this also holds true for female persons who do not wish to be a wife among wives in a household. Let it be remembered, well!

274. Listen to Reason! The Commandment-Laws of NoopooH and Absolute Nature in General given in this book are designed for True-Culture Societies as will be after Armageddon -- the war of knowledge, justice, and balance called equality. But those of us who can sufficiently practice these Commandment-Laws of NoopooH before the conclusion of Armageddon are ELITES.

32. "Fornication and adultery are vices definitely forbidden, the same way each time that conditions are the same." If two single people indulge in sex intercourse, they are either having sex with SOMEONE ELSE'S will-be husband and wife or having sex with THEIR OWN will-be husband and wife. In case of the former (someone else's), pre-marital carnal knowledge (which is sex intercourse) means that the male person has morally (and perhaps physically) tainted someone else's will-be wife and

THE COMMANDMENT-LAWS CONTINUE

the female person has morally tainted someone else's will-be husband, if the couple does not get married after the sex experience. On the other hand, in case of the latter (their own), any damage or wrongness by coition that may have occurred before the marriage to each other can be minimized during the relationship together as husband and life. In plain other words: Refusing to indulge in carnal knowledge (coition) before marriage is not only morally wise but helps eliminate unwanted pregnancies and other problems that might be connected with pre-marital sex. Let it be remembered always well.

275. Listen to Reason! If a single person experiences sex intercourse, of course, it is called FORNICATION; and, if a married person indulges in coition with someone other than his or her spouse, it is called ADULTRY. Sex is naturally sacred and special; therefore, when two people of opposite sexes have sex intercourse, it should be done RIGHT, that is, in accord with The Laws of Nature. It is fornication or adultery or both because two people of the opposite sex have coition but do not have any legal and moral binding obligation to each other. To experience sex intercourse, a couple needs moral and spiritual obligation to each other to become as one like the vows of wedding state, plus the fact that lying and deceit about love has no purpose and empty promises are minimized or eliminated because they serve no purpose when the couple gets married before they have sexual intercourse, since divorce is not permissible. Of course, this correct information is basically for beginner-lovers in a true-culture society and those who can cope with this Nature Knowledge in any society and adhere to it. To experience coition, a couple needs legal and verbal obligation (called vows) to each other to make their promises and duties enforceable by The Authorities that be and not some time down the line like General

THE COMMANDMENT-LAWS CONTINUE

Nature does it but immediately as by The commandment-Laws of NoopooH-Nature in short term. SOME PEOPLE will not do right in fulfilling their promises and obligations, unfortunately; therefore, they must be pressured to do so. Let it be remembered always and let it be known!

276. Listen to Reason! 33. "Divorce means breaking vows and breaking vows is mockery forbidden in Noone Society, the same way each time that conditions are the same." Breaking solemn vows is breaking The Laws of Nature, because by Nature your words of promise are your bond and meaning; therefore, if a person breaks his or her promise, he or she has broken his or her bond and that person becomes meaningless from the standpoint of representing value and principle. To put it another way: You are your words of promise, because that is all other people have to go by in dealing with you. Wedding vows represent an agreeable meeting of the minds by words and works and thereby binding by Nature in the sex act. Let it be remembered always and let it be known!

277. Listen to Reason! In True-Culture Society, one must honor the vows that he or she makes. If a person can break a vow or solemn promise that he or she makes, there is no need making it in the first place. If a vow can be broken, it is invalid anyway, because it is not binding and thereby unenforceable except by Nature, and by time General Nature takes care of the problem, the penalty might be on descendants instead of the transgressors who transgressed The Laws of Absolute Nature; hence, We have The Intermediate Laws of Nature called The Commandment-Laws of NoopooH-Nature which are immediate with action between broken laws and their penalties in a true-culture society. A real agreement between or among people or a solemn promise made by a person or persons is law

THE COMMANDMENT-LAWS CONTINUED

which should be in writing and signed for confirmation and enforcement, because: For a law to truly be law, it must be enforceable and enforced when necessary. Divorce not only makes a mockery out of solemn vows but the society that permits it as well. Divorce is especially bad if small children or adolescents are involved. Do not make vows and promises that indeed you can not or do not intend to keep, because you are responsible for them and must account for them directly yourself or indirectly through your descendants, if the penalties of Commandment-Laws miss you. Let it be remembered always, well!

278. Listen to Reason! 34. "Sex and violence as entertainment in True-Culture Society are emphatically prohibited, the same way each time that conditions are the same." Yet, the violators of this Commandment-Law of NoopooH-Nature in any society will experience negative returns. Movies, television, records, video tapes, audio tapes, and all types of entertainment full of sex and violent scenes and sounds are iniquities and abominations for the people of a society to fashion themselves after, whether these vices are meant for that purpose or not. To put it another way: The minds of people, particularly children, are like fertile soil, and when someone plants the seeds of lustful sex and evil violence into the minds, the seeds grow and become worse transgressions of The Laws of Nature than the seeds which motivated the people, because the seeds sown might be pretense, but the sex and violence from the people themselves are for real. Little wonder that sex and crime are out of control in those societies that allow these vices, and if something is not done pretty soon, vices and violence will destroy all the small portion of decent society that might be left in societies that permit these negative manifestations. Too many people have sold out and become possessed by fun, folly, pleasure, and comedy. Remember well!

THE COMMANDMENT-LAWS CONTINUE

279. Reason talks! 35. "Pornography and prostitution are indeed vices surely prohibited in True-Culture Society, the same way each time that conditions are the same." Sex is sacred and special, and pornography and prostitution dishonor, degrade, defile, and desecrate sex in mentality, ethereality, and physiology of those people who indulge in these so-called victimless crimes. Pornography is a sensual pleasure which fills the mind with desire and twists it into a serpent of lust with degradation and oftentimes perversion of sex. Pornography is moral destruction of the minds of those who find pleasure in viewing genitals and their activities. Prostitution destroys the sanctity (sacredness) of sex and makes it a product for sale, and often exposes the participants to venereal diseases and aids. Therefore, those vices known as pornography and prostitution end up destroying the participating parties mentally, spiritually, and physically while transgressing The Laws of Nature who require that natural ethics be high enough mentally and spiritually to maintain physical balance needed for healthy physiology by Nature. Remember well!

280. Listen to Reason! This Writer often uses the phrase -- "IN TRUE-CULTURE SOCIETY," because: Transgressions of The Laws of Nature are just as negative and wrong in any society, but IN TRUE-CULTURE SOCIETY (the future society after Armageddon), the Commandment-Laws of Noopooch-Nature can be enforced, for the conclusion of Armageddon is like starting all over again for those who survive The War of Rightness versus Wrongness.

36. "Using contraceptives and doing masturbations are unnatural acts prohibited in True-Culture Society but permissible under certain circumstances." All oral contraceptives are strictly forbidden, because they might cause cancer or other maladies, since they work against the natural processes of Absolute Nature; and, if one works against The Natural Course of

THE COMMANDMENT-LAWS CONTINUE

Almighty Nature, he or she is in for problems -- serious problems. Let it be remembered always and let it be known!

281. Listen to Reason! Physical contraceptives such as condoms for men and internal devices for women can also be injurious to one's health but not like chemical in the bloodstream or vagina, reversing or destroying what comes natural. If a situation arises whereas it is more positive to use a physical contraceptive than it is negative, then it is permissible to do so, as prescribed by a qualified physician. Let the Writer pen this note while speaking of physicians: Male physicians should attend male patients, and female physicians should attend female patients whenever and wherever possible and practical. But remember, the ovulation method of birth control is required; so it is true that female persons must learn to cope with this system and the male persons must likewise learn to be patient and cooperate with their wives. Remember too, sex is not for sport but for balance and reproduction. Let it be remembered always and let it be known!

282. Listen to Reason! As a youngster grows up, his or her sex organs develop likewise and sex urges increase too. This sex development is stronger and faster in some youths than it is in others. A male person is usually not ready to take on a wife until he finishes high school or even later. So, he has to fight off his sexual urges until he gets married; but during this time of waiting, he will likely have what is called wet-dreams -- instances during sleep when Nature automatically relieves him of his semen. If this does not happen regularly or often enough, the male person might experience mental and physical pressures not good for mental and physical healths. Hence, when this situation occurs, masturbation is permissible for relief and balance. Let it be remembered always and well!

THE COMMANDMENT-LAWS CONTINUE

283. Listen to Reason! To put it another way: Be honest with yourself because you can not fool Nature, when you reason out by Nature that it is more positive to masturbate than not to, although masturbation is an unnatural act, it is permissible in this case, because it is then more beneficial than harmful, more positive than negative. Try hard to avoid masturbation, because it is an unnatural act, but if you must, use proper lubrication. On the other hand, if a female plans to be a housewife, she might get married quite earlier than a male individual, and early marriage will ease her early development sex problems called sex urges. It is so that in True-Culture Society people are taught from early life how to cope with sex problems that might arise, and True-Culture Society does not have all the temptations and ethical corruptions we find in societies of today at the time of this writing; therefore, adolescents in Noone Society are much better equipped and qualified to deal with their problems of any kind. This Writer reiterates: In Noone-Nature Society, anyone with a problem that he or she can not solve satisfactorily must take it to CENTRAL SOLUTION (or one of its branches) for solution. Central Solution is the problem-solving center for society done by The Government. Let it be remembered always and be known!

284. Listen to Reason! Some people might say: "These Laws of Nature are too strict and too hard to handle and thereby they would make people weary, bored, and unhappy. You can not have all your cake in your hands and all your cake in your stomach too. You can not have it both ways. In The Moon Societies as we know societies today at the time of this writing, people have little or no choice but to go along with what Religion and its political branches have to offer as far as law and order are concerned, because most people do not know any better. But today we have an alternative (or choice) offered by NOO-

POOH in the form of Noone and its law and order. The old order of persons and things offers wars, guns, captivity (mental, spiritual, and physical), murder, oppression, violence of all sorts, rape, sodomy, homosexuality, pornography, prostitution, robbery, muggings, one-sided racism, poverty, hunger, homelessness, suffering, and death, et cetera, with sex perversion, racketeering, and violence for profit. Let it be remembered always and let it be known!

285. Listen to Reason! The Writer is sure that an intelligent person does not prefer these grave transgressions and corruptions over quietness and serenity with mental and physical security. When people experience The New Order of persons and things, they will wish that they had been in The New Order all their lives. When one learns Nature Knowledge and finds the tranquility of it, he or she would have it no other way. In other words: If a person is willing and ready to do right by others as well as by self, right procedures (as in Noone) are routine, normal, and natural processes to him or her for health and happiness. To people who be born and raised in a true-culture society, living is easy and heavenly. Let it be remembered always and let it be known!

286. Reason Talks! 37. "Maintain a chaperon society where boys and girls must go to separate public schools, the same way each time that conditions are the same." Preceding law number 36 on Page 193 paragraph 280, the Writer unintentionally left out the phrase, "the same way each time that conditions are the same," but be it known this phrase should be at the end of every Commandment-Law of NoopooH-Nature as a reminder that Nature is consistent and standard with Its commands and punishment in accord with The Nature of Nature. It is surely true that boys and girls are naturally attracted to each other

THE COMMANDMENT-LAWS CONTINUE

at very early ages, and this attraction needs to be minimized during their early ages up to the time they get married or up to adulthood for the purposes of better learning in school and much less problems that boys and girls create for themselves when in too close proximity to each other. Let it be remembered always and let it be known!

287. Listen to Reason! A CHAPERON SOCIETY is a society indeed where females (especially young unmarried females) are escorted by their husbands, fathers, brothers, sisters, mothers or some other person suitable for looking after them whenever possible and practical as protection from or discouragement to predators, that is to say, those who would harm or hurt them. Boys and girls learn more and learn better and learn faster when they are separated in the education system, because there are less attraction and temptation for them, and their emotions for the opposite sex are basically non-existent when at school. The schools for both sexes may be on the same lot but separate buildings and separate playgrounds. The proper places for male and female minors to meet are at their homes by their parents or at the place specially prepared for boys and girls to get acquainted and converse and perhaps play games suitable for both sexes. Let it be remembered always!

288. Listen to Reason! 38. "Firearms, explosives, and other weapons for doing harm to members of the society are banned for citizens and others who might be in the society, the same way each time that conditions are the same." Firearms, explosives, and other weapons in the hands of people other than those authorized by The Government to handle them mean violence, chaos, and anarchy in a society, eventually. The only ones who should have access to firearms in whatever form they do be needed are the Police Forces and Military Forces

THE COMMANDMENT-LAWS CONTINUE

and the members of these forces need not carry the guns and ammunitions around with them unless extremely necessary, but just have access to them through proper authority. The only way to deprive people of guns is neither permit their manufacture nor their sale and collect all guns that might be out there in the streets and in the households of the society or nation. Let it be remembered always and let it be known!

289. Listen to Reason! 39. "Do not let the guilty party of an accident go unpunished, the same way each time that conditions are the same." If there be an accident (other than a freak accident), someone was negligent, and that negligent person has to pay the price. What the writer means by "freak accident" is this: An accident happens but no one was negligent and no one could see it coming on a reasonable basis. If a person (or persons) gets killed because another person did what he or she was not supposed to do or disobeyed the rule of law, that person is to die by suicide in starvation or oral-intake of whatever chemical be used for self-killing, because he or she committed murder by negligence. This Commandment-Law of NoopooH-Nature demands alertness and vigilance when dealing with the safety of others, for the safety of The Innocent is not to be taken lightly and carelessly. If the accident caused injury but no death, the one responsible for the accident must be given a public whipping and compelled to pay the damages. Let it be remembered and be it known!

290. Listen to Reason! 40. "It is your duty to report any crime, violation of The Commandment-Laws of NoopooH, or any other action you know to be against the best interests of society or anyone in the society, the same way each time that conditions are the same." You are your brother's keeper, because we all of a kind are one by Nature; hence, guarding the

THE COMMANDMENT-LAWS CONTINUE

safety of one is guarding the safety of all, and guarding the safety of all is guarding the safety of one. If you do not obey this Commandment-Law of NoopooH-Nature, you are not only an accomplice to the wrongness done but also a transgressor of The Laws of Nature and subject to the same punishment that the culprit gets. The willingness and readiness of members of the society to report violations of moral and legal laws by eyewitness make an evil-doer think twice before doing something cynical and diabolical. Let it be remembered always!

- # 291. Listen to Reason! 41. "Boys and girls must be taught sex education -- boys by qualified adult males (preferably their own fathers) and girls by adult females (and preferably their own mothers) -- the same way each time that conditions are the same." A boy from about seventeen (17) years old (or maybe younger) should be taught how to satisfy his wife, like how to treat her nice even when he or she might be in a bad mood, and this can be done by forcing out extra positiveness that is within. The male youngster should also know that most women have their greatest sexual feeling at the top of the vagina in the spur-tongue called the clitoris, and when the clitoris is amply massaged by the penis, the result is usually satisfying orgasm for the female. Foreplay (patiently kissing, hugging, and caressing her on her sensitive spots) is very important to the male and female sex relationship before having sex, and this foreplay action should be done for a reasonable time. A girl from about fifteen (15) years old (maybe younger) should be taught by qualified females, things indeed that will help please her husband, like always treating him like a king while he always treats her like a queen. And do not forget, female persons must learn to master the ovulation method of birth control, and male persons must learn to be patient and cooperate with their wives in this effort.

THE COMMANDMENT-LAWS CONTINUE

- # 292. Listen to Reason! 42. "Rape, robbery, and theft are crimes gravely forbidden in true-culture society, the same way each time that conditions are the same." Big cities that now exist should be decentralized (the dense population thinned and spreaded out over the countryside), and people should not create big cities that do not exist already. The reason for this is: Densely populated areas with high buildings for living and lodging quarters, where people hardly speak to each other let alone know each other as neighbors, provide hiding havens for criminals and corrupters of society. The more people speak to each other and get to know each other as friends, acquaintances, and neighbors the better the chances are for prevention of crime and catching perpetrators who have already committed crime. Let it be remembered always and be it known!
- # 293. Listen to Reason! Rape is a crime that not only desecrates and defiles sex (which is sacred) but also dehumanizes and stigmatizes the society and nation. Rape is more than a disgrace; it is a deadly sin like murder, and thereby the penalty for rape is death like murder is in a true-culture society. However, since rape is not the taking of one's life, the assailant may be given a choice of castration and compensatory settlement to the victim or suicide by starvation or oral-intake of whatever chemical is used for suicide and The Government makes the compensatory obligation. The penalty for robbery or mugging (if no one is killed) is a severe and public whipping and payment for damages done. The Government makes settlement with the victim whether the criminal is ever caught or not, and the victimizer makes settlement to The Government. The penalty for theft is the same as that for robbery and mugging -- a severe public lashing and recovery of the property taken or its equalness and payment for any other damages that might have occurred. Let it be remembered always and be known.

THE COMMANDMENT-LAWS CONTINUE

294. Reason talks! 43. "The victim of a crime must be awarded damages and compensation by The Government, whether the violator is ever caught or not, the same way each time that conditions are the same." The duty or obligation of The Government of a society or nation is the safety and provisions for its citizens to the best of its knowledge and ability. Therefore, when a citizen is threatened or hurt by someone, it is The Government's duty to come to that person's aid and solve the problem -- this is true government of the people, by the people, and for the people. If a crime is perpetrated upon a citizen, it is the obligation of The Government to apprehend that transgressor and bring him or her to justice. Nonetheless, whether the assailant is caught or not, The Authorities must set things right for the victim or his family (if the victim is deceased) with whatever the requirements are. In other words, The Government must balance things off for the victim, and the victimizer must equalize things with The Authorities called The Government. Let it be remembered always!

295. Listen to Reason! 44. "Determine the guilt or innocence of a person by evidence and Sound Right Reason beyond a reasonable doubt, the same way each time that conditions are the same." Governmental Authorities must make sure to the best of their knowledge and abilities that an innocent person is never victimized and stigmatized by guilt, and there must be special efforts made to protect innocent, for they deserve it. Protecting the innocent means that evidence for guilt must be binding without possibility for a frame-up, that is, someone's crime be placed on someone else because it looks as though the someone else did it. All possibilities of guilt or innocence must be considered and the process of elimination used diligently and intelligently. In Noone Society,

THE COMMANDMENT-LAWS CONTINUE

there is no such thing as THE STATUTE OF LIMITATIONS on crime. A transgressor is guilty until he or she is brought to justice and his or her penalty is paid and balance established. Let it be remembered always and let it be known!

296. Listen to Reason! 45. "In True-Culture Society, gambling on a small scale by The Government with its citizens for entertainment only is permissible, like other pastime games, the same way each time that conditions are the same." In most societies of today (the time of this writing) gambling is indeed looked upon as a vice -- an immoral activity or sin, and it is because of the way it is done and the evils it is allowed to create, but note that gambling has nothing to do with physical or mental health, unless one lets gambling become a problem, and letting gambling become a problem is not permissible in Noone Society. In True-Culture Society (Noone Society) GAMBLING is an agreement between two financially opposing bettors to win or lose by the rules of the game in a fair and also equal manner. In other words, gambling is what people make it -- We can make it a pastime or bad time. Be it remembered!

297. Listen to Reason! There can be gambling as an entertainment and gambling as a business or racket. Gambling as an entertainment kept clean and fair is permissible and practical for an equal society. Nice games for pastime are games like bingo, black jack or 21, poker, et cetera. The amount that can be won by a person during the whole playing time must be a few dollars, and the amount that can be lost must surely be a few dollars, and this small-amount betting must be controlled and run by The Authorities of the society. Other wonderful entertainments are softball, tennis, table tennis (ping pong), pool or billiards, track running, and all games that are clean and require very little or no physical contact, and this mini-

THE COMMANDMENT-LAWS CONTINUE

mizes the chance of injuries that might happen to the players and participants. Betting on anything should be just enough to make the game interesting and entertaining, and gambling must not be allowed to become a problem for a person or group of persons, and thereby it must definitely be created by The Government and strictly controlled by The Government for entertainment purposes only, plainly and clearly. Let it be remembered always and let it be known!

298. Listen to Reason! 46. "Scapegoatism is a practice of barbarians and it is forbidden now that the Moon Cycle is over, the same way each time that conditions are the same." Now that The Moon Cycle has run its course, it is time for each and every person to stand on his and her own merits and be counted and judged by Almighty Nature in Its balance of powers and persons and things. Scapegoatism is an affront to justice and fair play, and therefore, it can not stand and prevail in the time of justice. The guilty can no longer hide behind and stigmatize the innocent, because the time for putting blame on the innocent and getting away with it is over, meaning, the use of scapegoatism now will cause negative backlash on the guilty. The guilty persons are the enemies of The Ethiopian Race and those who transgress the Laws of Nature after learning what they are or refusing to learn and practice The Laws of Nature after having access to them. Be it remembered well!

299. Listen to Reason! 47. "Forgiveness and mercy as religious doctrines are anti-justice dogmas indeed forbidden in Noone Society (True-Culture Society), the same way each time that conditons are the same." Like the Writer himself, everyone likes to be forgiven or be given mercy for errors and also wrongnesses committed, but that was for The Moon Cycle. Moreover, according to The Laws of Nature, forgiveness and mercy

THE COMMANDMENT-LAWS CONTINUE

do not mean that punishment for the guilty was destroyed or eliminated but simply delayed or postponed until a later date or time (like Armageddon) to be accounted for by the guilty one or his family, descendants, or kind. The Libra Cycle of New Order which is beginning now means balance and justice also security for the innocent and the Libra Cycle has already begun its deliberations via NoopooH and Noone. Let it be remembered always and let it be known!

300. Listen to Reason! 48. "Lying and cheating are iniquities despised and chastised, the same way each time that conditions are the same." It is true that some lies are harmless and even beneficial, but sometimes it is hard to distinguish between a lie that is more harmful than helpful and one that is more helpful than harmful. So, the best thing to do is to avoid lying, because, after a while lying becomes a habit anyway -- a bad habit. Adhere to the old adage: Honesty is the best policy, and live with it. When one lies under oath, by law it is called PERJURY; but in True-Culture Society, any lie that causes character damage or any other damage to a person is punishable by a good public whipping and payment for all damages caused by the lie plus a public retraction by the lier of his damaging statement or statements. Cheating is another form of stealing, and the punishment is the same -- a meaningful public beating and all losses recovered or paid for. Of course, cheating on The Laws of Nature is transgression of The Laws of Nature, and cheating on your spouse is ADULTERY punishable by standard public whipping and whatever else he or she can do to make it up to his or her spouse. Let it be remembered always and let it be known!

301. Listen to Reason! 49. "One, two, three strikes and you are out at the crime game, the same way each time that condi-

THE COMMANDMENT-LAWS CONTINUE

tions are the same." There is an old song about the game of baseball that goes something like this: One, two, and three strikes you are out at the old ball game. In Noone Society, this number three is likewise the culprit's out number, too. If a person does three serious crimes from time to time in the face of a true-culture arrangement such as crime-prevention methods like THE CENTRAL SOLUTION OFFICE (and its branches) for solving problems and everyone gets a job for making an honest living in AN EQUALISM ECONOMY, he or she is considered to be an habitual and chronic criminal who is INCORRIGIBLE (can not follow normal and natural correct behavior), and therefore, he or she must be eliminated by suicide for benefit of society and all concerned citizens, because it will be a matter indeed of just a little more time before he or she does another violation of The Laws of Nature. The fact that the perpetrator does the third crime, knowing that three is the termination number for crimes, is proof that the person is incorrigible and a chronic menace to society. Let it be remembered always!

302. Listen to Reason! 50. "Insanity is a morbid condition which is no excuse for doing crimes and other wrongnesses, the same way each time that conditions are the same." Insanity, whether it is hereditary or temporary, is neither permissible nor acceptable as excuse for violations of the legal and ethical laws of a true-culture society. It is very unfortunate that a mentally ill person has to be treated as though he or she is normal when it comes to crime; but, if this is not done The Negative Forces of Nature will fill up society with these unfortunate people by taking advantage of the mentally weak nervous systems of people who are prone by heredity to mental illness or Leviathan will send demons who specialize in nervous breakdowns to possess people. Negative demons always do take advantage of the weaknesses of persons, places, and also

THE COMMANDMENT-LAWS CONTINUE

things, mentally, spiritually, and physically. However, the public whipping imposed upon normal people must not be done in the case of the mentally ill, but everything else goes including the three-strikes-out law and the death penalty for murder. Let it be remembered always and let it be known!

303. Listen to Reason! 51. "Keep the population reasonable in number, decentralize big cities which exist already, and create no big-city dwellings any more, the same way each time that conditions are the same." People-population control is very important if The Peoples of The World are going to be masters of their own destiny and have enough food, clothing, and shelter to live comfortably and intelligently. Of course, the key to population control is sex control -- we must control sex instead of letting sex control us. The key to sex control is sex-urge control by mind control -- not looking at sexy scenes and sexy pictures plus the use of the ovulation system by female persons while male individuals be patient and cooperate with the females' routine of technique. It is true, of course, that the ovulation method of birth control involves abstinence from sex when it is time for the female egg to come down in its monthly menstrual flow. After the female menses have passed, it is harder for her to get pregnant. Females who practice this system usually refuse indeed to have sex intercourse a few days before her monthly period and a few days after. This method must be taught by professionals (those who know by experience) to all women of child-bearing ages who do not know. Most population explosions take place in densely populated areas (like big cities) mostly among people who are ignorant and poverty stricken and they use sex as a means of offsetting their idleness, pain, and suffering, and the lack of sufficient medical care, clothing,

THE COMMANDMENT-LAWS CONTINUE

food, and shelter. The poor and downtrodden are cooped up and trapped in big-city ghettos and so-called slums and they are full of boredom and sameness with no way out that they know about. Small communities like towns, townships, and villages plus country territories are definitely preferable to big-city congestion of the population. Let it be remembered always well

304. Listen to Reason! 52. "The economy (supply and demand, buying and selling, goods and services, production and distribution) in True-Culture Society must be equalism, the same way each time that conditions are the same." After Armageddon -- the climax war between rightness and wrongness with rightness prevailing -- the economies of societies and indeed of The World will be EQUALISM (to coin an english word). Equalism is the economic-social system where people share all valuables equally including food, clothing, and shelter as closely and equally as possible and practical as required by government constitution. In this system of production and distribution, one will not find a few people with almost everything and the rest of the population with little or nothing, although they are recipients of the same society and citizens of the same nation. Peoples throughout The World must learn to equally share what Absolute Nature has to offer us Human Beings for survival, well-being, and continuity. No few people or race of people own Planet Earth; Planet Earth belongs to all of us, and we all must learn to share it and all the valuables and standards thereof, equally. Yet, it is fact that all ethnic races must learn where their places are on Planet Earth and stay there for the sake of peace and place for each other. So, someone who has the knowledge, understanding, and wisdom has to blueprint the action and point the way, and that person is NOOPOOH with The Science NOONE written by AFROO OONOO, indeed the Writer and Messenger of NoopooH and Nature in General.

THE COMMANDMENT-LAWS CONTINUE

305. Listen to Reason! 53. "Make every effort to prevent crimes and wrongnesses before they happen is the best policy and principle, the same way each time that conditions are the same." You know the old proverb: "An ounce of prevention is worth a pound of cure." This is very true, and the Writer will go further and say -- prevention is the panacea (the real cure-all). Prevention is the cure-all in the sense that it cures all troubles before they can develop into active actual problems. Right positive knowledge and right proper teaching about what needs to be known is the key to progressive prevention -- prevention which is up to date and moving with time and tide of survival and well-being. To prevent the breakdown of an automobile, you keep it maintained by replacing the worn down parts and keeping the fluid levels clean and sufficient in amount and quality. The same way it is with any other organism, mechanism, or organization of persons and things. When we see potential trouble on the horizon of well-being, law, and order in Noone Society, we must attack it head on and keep the energies that be, balanced and equal. All Commandment-Laws of NoopooH-Nature are aimed at prevention, but, when attempts at prevention fail, there is always punishment by Nature and Its peoples to bring balance and equilibrium to persons and things mentally, spiritually, and physically. Let it be remembered!

306. Listen to Reason! 54. "Natural law enforcements directly by Nature Itself and human efforts by Commandment-Laws of NoopooH-Nature and their punishments and penalties are required fulfilment manifestations of The Laws of Almighty Nature, the same way each time that conditions are the same." This Writer reminds you: The expression --"THE SAME WAY EACH TIME THAT CONDITIONS ARE THE SAME" -- means that Absolute Nature is consistent, constant, and standard in the application of its laws and penalties, and in order for us Human Beings

THE COMMANDMENT-LAWS CONTINUE

to derive at these Laws of Nature and apply them to our everyday living, survival, and well-being, we must also be consistent, constant, and standard in our manifestations of The Laws of Nature, because these qualities (consistency, constancy, and standardization) are what make law be true law instead of sham and shame. Law without enforcement of it means little or nothing. Absolute Nature has built-in enforcement (fulfilment) of Its laws which eventually happens, but it is better if we humans, for our own sakes, can take over as much of this burden of laws and penalties of Nature as possible and practical, because this way we get quicker and more direct application on the person to be rewarded or revenged for activities for or against The Laws of Nature, and The Commandment-Laws of Noo-pooH-Nature are the science of us Humans taking on the burden of The Laws of Nature and their rewards and penalties indeed for obedience and violations of The Laws of Nature. When Afroo Oonoo makes Laws of Nature manifest, the slight amount he may be off from the exact law and its exact penalty is ADJUSTED by Almighty Nature in Its ultimate judgment on persons and things as Time progresses. Let it be remembered always and be known!

307. Listen to Reason! In order for law to be true and for real to all concerned, its application must be THE SAME FOR ALL -- it must be obeyed as exactly as practical by everyone, and it must be enforced as exactly as possible for everyone -- the same reward for the same benefaction and the same penalty for the same crime or wrongness FOR EVERYONE involved at any time and any place. In True-Culture Society, laws are fulfilled to the letter, that is, the meaning of The Law is taught properly, the obedience of The Law is expected as explained, and enforcement of The Law must be to the letter -- exactly as given. Natural Law is not meant to be a mockery of society. Let it be remembered always and let it be known!

THE COMMANDMENT-LAWS CONTINUE

308. Listen to Reason! 55. "All Commandment-Laws of NoopooH Nature must be the form, framework, and foundation of THE CONSTITUTION of The African Noone Kingdom on Planet Earth and any Kingdom of People who want to fashion themselves after this True-Culture Society, the same way each time that conditions are the same." The Natural Positive Culture of The Ethiopian Race is TRUE CULTURE, and The Science Noone is THE PHILOSOPHY-SCIENCE of this Ethiopian-Race Culture. True Culture is culture based upon The Nature of Nature and Its laws and The Best Reasoning for any given time concerning Positive Nature and the manifestations of Its laws. This Writer did not include and cover all Commandment-Laws of NoopooH-Nature which must eventually be included in Noone and True-Culture Society, but he shows how it is done, and covered most of the most important ones pertaining to Human Beings and their life and death. Let it be remembered always and let it be known!

309. Listen to Reason! Physically, THE AFRICAN NOONE KINGDOM of Planet Earth will be ALL THE MOTHERLAND AFRICA and her surrounding islands, and mentally and spiritually, THE KING of The African Noone Kingdom (whose acronym is TANK) is NINE-NATURE NOOPOOH -- emanating from the Centers of Universe Orbs such as The Sun, Earth, and Moon -- and whose Writer plus Messenger is AFROO OONOO, the Scribe of The Positive Words known as NOONE. The African Noone Kingdom will come into being after ARMAGEDDOM -- the climax war between justice and injustice with justice prevailing -- but, physically, spiritually, and mentally, the gathering of The African Noone Kingdom (TANK) starts with members of The Ethiopian Race everywhere becoming NOONEBUS (NOON-E-BOOS), those persons who accept, learn, and practice The Nine-Science Noone and thereby become ELITES -- those chosen to survive Armageddon: The climatic war of the climax action called THE POINT-3-SOUTH CATAclysm. Remember!

THE COMMANDMENT-LAWS CONTINUE

310. Listen to Reason! 56. "Whereas the economic system of The African Noone Kingdom must be Equalism, the political system of this Kingdom must be Spiritual Noone and headed by an elected physical King representing The Mental-Spiritual King NoopooH-Nature, the same way each time that conditions are the same." The True Physical Visible Guide for the members of The African Noone Kingdom (TANK) is The Positive Philosophy-Science Noone written by Afroo Oonoo -- The Herald and a pioneer of The New Kindom of Almighty Nature on Planet Earth, which is The New Order of Persons and Things. THE MENTAL-SPIRITUAL-PHYSICAL REPRESENTATIVE (The Physical King or Queen) of The African Noone Kingdom can be any eligibly qualified member of The Ethiopian Race who is willing and ready to uphold THE CONSTITUTION of The Kingdom -- The Constitution is Noone and The Commandment-Laws therein. The Elected Ruler may be male or female. Let it be remembered always and let it be known!

311. Listen to Reason! The Physical Representative (The King or Queen) must be A ROLE MODEL who sets the right and proper example for others by adhering to Noone and The Laws thereof. Since NoopooH and Noone are THE TRUE AND REAL GUIDE, The Ruler (King or Queen) is THE LEADER IN ACCORD WITH THE GUIDE. The foremost purpose of The Ruler is to maintain for himself and all other members of The Kingdom-Society the fulfilment of The Constitution of The Kingdom and make decisions of society together with his or her helpers. The Ruler is The Physical God or Goddess, The Physical Primate-Prelate (Highest Priest), and The Physical Sole Ruler (The King or Queen) who is The Personification and Incarnation of NOOPOOH. -- The Ultimate Ruler in Almighty-Absolute Nature. The Physical Ruler must be elected by The People of Society every nine (9) years, or removed from Power before the nine-year term is up, if he or she deviates from The Guide -- Noone and its Commandment-Laws. In Noone
